

Credit Card/True Link Card Worksheet

Instructions

It's important that you enter your transactions in the spreadsheet sequentially. If you skip lines, the function that keeps track of your balance won't work correctly. Enter all transactions listed on the credit card statement/True Link Card Activity Report. If you do not have the receipt, please enter a "0" in the Amount to pay column. If you are not requesting full payment on a receipt, please enter the amount requested in the Amount to pay column and make a notation on the receipt.

Beneficiary Name: Date:

Credit Card Account:
